

REQUEST FOR RESEARCH FUNDS

College of Education Office of Associate Dean for Research

TOPIC: *Experimental or quasi-experimental research to demonstrate the impact of open/alternative textbooks on student learning.*

ELIGIBILITY: *College faculty who received college or university funding to develop open/alternative textbooks and who have completed the development of the product.*

Name

Email:

Brief description of the product:

Statement of purpose for the research (or research questions):

Potential dependent variables (related to student learning):

Preliminary thoughts about research design and methodology:

Possible start date for the study:

Will you involve an undergraduate or graduate students as a research collaborator in your study? If so, how?

I understand that if I receive funding for this research study, I will receive \$1,000 in a DRA account for any purpose allowed by university policy. I commit to conducting the research in a scholarly and ethical manner, including submitting an IRB. I commit to completing the research and submitting a research paper about the study with the expectation that it could be publishable in a professional journal.
