## All Data

Data sources: KSIS and Student Data Warehouse.

First-generation status is determined by the last known status during the student's undergraduate career. It does not reflect the status reported upon entry.

New programs are treated as having 0 students before coming into existence, so growth rates may be skewed.

## Headcounts

Headcounts reported as of the Fall 20th day census date.

## Degrees

Degrees conferred include all degrees granted for students who earned Associate's, Bachelor's, Master's, Doctorate, or Professional degrees. Certificates and Minors are only include in the All Plans selection of the headcounts and degrees by major page.

Degree years include Summer, Fall, and Spring (leading summer) graduates. Ex. 2018 includes Summer 2017, Fall 2017, and Spring 2018 graduates.

Degrees include all known degrees earned up to the refresh date of the report. These numbers may differ from degrees reported via end-of-semester or end-of-year snapshots.

## Retention & Graduation

Cohorts include first-time, full-time, degree-seeking freshmen only.

Data will only display if there are more than 10 students in selected year.

## All Plans Data

Headcounts and degrees for All Plans include all plans, primary and non-primary, and include minors, secondary majors, certificates, and non-degree plans.

All Plan headcounts are calculated as the Distinct Count of students in the given breakdown.

A student may be counted more than once across a breakdown category (college, plan, subplan, etc.), but only once in the grand total.
